AFC Leyton
Women & Girls

Match Day - Adult **Risk Assessment 2021**

About this document

This document has been produced in line with the Government and FA, which sees the easing of lockdown restrictions on gatherings, public spaces, and outdoor activities and the phased return of outdoor sport and recreation.

The return of grassroots football is something that we know many are keen to see, but at this stage of the nation's response to Covid-19, it must be done with careful consideration for everyone's safety.

We have confirmed with our insurers that our insurance is still in place and operational for our return to training and beyond, in line with government guidelines

IMPORTANT: If a member of your household are showing symptoms of the virus or have been in contact with someone displaying symptoms within the last two weeks, then you should stay at home until a NHS practitioner advises you that you no longer need to remain in isolation and your daughter will not be permitted to train with us during this time.

Player Safety Checklist

- If anyone in your household including yourself is displaying a temperature, please do not attend the match and self isolate for 10 days. All temperatures will be checked again upon arrival using a thermometer gun.
- You will be asked to scan a QR using the NHS Track and Trace app.
- No spitting. If you have hay fever or need to cough, please do this into the crook of your elbow. Anyone displaying a persistent cough around the pitch will be asked to leave the facility immediately.
- Hand sanitisers will be available on the side of the pitch for our home games and you will be required to use these on arrival and leaving. The coach will have sanitisers for in-play. Toilets will be open but the changing rooms will remain closed.
- Players must arrive in their kits ready to play. No changing at the facility will be permitted, all changing rooms will be closed.
- All equipment will be sanitised prior to player use (balls, goal posts, flag poles, cones).
- Ensure you have a water bottle and that it is distinguishable from another's players (preferably named). Players must not share their drink with anyone else – not even “skying”.
- Should an injury occur the designated first aider will treat wearing gloves and facemask. Please ensure you have added emergency contact details in your LoveAdmin account should we need to call someone to assist you.
- If you become unwell during a match, you will be removed from the session away from the other players.
- Please ensure you collect everything when you leave the match. Coaches will visually check. However anything left behind may be thrown away due to infection risk.

Player Safety checklist ctd

- All equipment will be sanitised prior to the match including the goal posts. We ask that you minimise touching the ball unless necessary (ie throw ins).
- Group huddles and contact-based goal celebrations are not permitted.
- Set plays must be done quickly and walls should be avoided.
- If you are feeling unwell or injured, sit down. The referee will know to stop the game and a first aider will come to treat you or arrange for you to be collected by your emergency contact.

Club Safety checklist

- Track and Trace:
 - NHS Track and Trace App will be required to scan the club's dedicated QR code upon arrival.
- Goal posts and flag poles wiped down. Match balls and cones sanitised prior to each match.
- Respect barriers set at least 2 meters back and up to 4 metres back from the line (2 to 4 pole widths) to ensure players are at least 2 meters from the spectators when undertaking throw ins or running to keep the ball in play.
- All match attendees to sanitise on arrival including referee, coaches, linesman and players. See risk assessment for intervals.
- Ensure temperature is taken for all involved in play: players, coaches, linesmen/women, referees and coaches prior on arrival using the laser thermometer gun.
- Subs should maintain social distancing and must not bib share. It is recommended that players bring a tracksuit top/hoodie/coat to wear whilst sitting out of the game to ensure there is no accidental cross contamination from bibs.
- No team huddles, pre or post match handshakes, or goal celebrations in close contact with other team members.
- Set plays must be done quickly – avoid walls.
- For first aid, all coaches and first aiders to have a face mask and first aid packs must include latex gloves for treating players.

Risk Assessment – all Matches

Hazard	Who could be harmed?	Severity	Controls	Additional comments
<p>People attending in team / groups</p>	<p>There is a particular risk to</p> <ol style="list-style-type: none"> 1. Other participants 2. Coaching team 3. Other visitors 	<p>HIGH</p>	<ol style="list-style-type: none"> 1. NHS Track and Trace QR codes available at the ground. All spectators and match officials should sign in. 2. Areas created in advance of the session, with a max of 5 in each area training 2 meters apart 3. Match Day Covid Official (a nominated rep per team) to check the temperature of players on arrival. Any with an elevated temperature will be asked to go home and self isolate for 10 days. 4. Coaches to mark out with cones areas for subs to wait. 	<p>It is a requirement that all clubs have a match day risk assessment in place. This must be shared prior to the match (usually when the match day information is shared)</p> <p>If it is an away match and there is no risk assessment in place by the opposition, the match will be cancelled by AFC Leyton and the league notified.</p> <p>This risk assessment will be stored online on our website afcleyton.co.uk.</p> <p>High vis jackets to be worn by COVID Officials.</p>
<p>Risk of social distancing guidelines being breached during sessions</p>	<p>There is a particular risk to</p> <ol style="list-style-type: none"> 1. Participants 2. Coaches & officials 	<p>MEDIUM</p>	<ol style="list-style-type: none"> 1. For home games, the particulars of this risk assessment must be followed by the team coach with support of the nominated rep representative (Match Day Covid Officials). 2. For away matches, the club must receive the oppositions risk assessment at least 48 hours before the match. The club welfare officer/Covid officer will review the opposition risk assessment and liaise with the opposition should there be any queries or concerns. 	<p>To ensure guidelines are maintained we ask that spectators do not move around – this will be monitored by COVID Officials.</p> <p>One half will be allocated home spectators and the other away spectators.</p> <p>Spectators for each team must remain together in their half and not mix with the opposition spectators.</p>

Hazard	Who could be harmed?	Severity	Controls	Additional comments
Risk of social distancing guidelines being breached on arrival and departing the site	<p>There is a particular risk to</p> <ol style="list-style-type: none"> 1. Other participants 2. Coaches 3. Other visitors to the site 	HIGH	<ol style="list-style-type: none"> 1. For all matches, players and spectators are asked to ensure that they remain 2 metres apart when arriving. 2. Respect barriers to be set 4 metres + back from the line to ensure that there is always at least 2 metres between the player and spectators for throw ins, corners and run offs etc. 3. Players will be permitted 1 spectator each at the respect line, 2 metres apart. These spectators must wear a mask unless mask exempt. 	<p>The FA guidance refers to venue capacity. As grassroots football usually does not have seats for spectators and in order to mitigate risk, we ask that only 1 spectator per player is actually at the respect line.</p> <p>This will be reviewed weekly through feedback and the Covid/Welfare Officer.</p>
Risk of general cross contamination	<p>There is a particular risk to</p> <ol style="list-style-type: none"> 1. Other participants 2. Coaches 	MEDIUM	<ol style="list-style-type: none"> 1. Players and coaches to check their own temperature before arriving. If elevated or anyone is displaying a persistent cough, they must not attend the match. They must also notify the club and self isolate for 10 days. 2. All players, coaches and match officials to regularly sanitise at sensible intervals during game play. It may be appropriate for matches to run in thirds (rather than 2 halves) to accommodate this and this should be discussed with the referee and opposition before the game commences. 3. Coaches must have face masks and gloves in their medical kits in the event of treating an injured player. 4. Drink bottles cannot be shared (no skying) 5. Any other consumables other than healthy fluids will not be allowed onto the pitch 	<p>Sanitisation guide</p> <p>Sanitisation should happen prior to start. Balls kicked out of touch should be replaced with a fresh ball. The ball kicked out of touch should be sanitised ready to put back in play.</p> <p><i>Players should sanitize at the half and at the end of the game.</i></p>

Hazard	Who could be harmed?	Severity	Controls	Additional comments
Risk of contamination through use of toilets	There is a particular risk to 1. Other participants 2. Coaches	Medium	<ol style="list-style-type: none"> 1. Toilets are now able to be open during the sessions. It is important that the players sanitize their hands after the use of the toilets. 2. Changing rooms will remain closed and the only reason for going in the pavilion should be to use the toilets. 	Welfare officer, coaching team & Head Coach to monitor sessions and adjust practices accordingly to continually ensure safe operation on the sessions
Risk of cross contamination through use of equipment	There is a particular risk to 1. Other participants 2. coaches	Medium	<ol style="list-style-type: none"> 1. Minimal equipment to be distributed to each area, which will be sanitised before use. 2. All equipment to be wiped down prior to the match starting including goal posts, flag poles, cones and balls. 3. Players to bring a tracksuit top / hoodie to wear to reduce cross contamination from bibs. 4. Ball sanitised at regular intervals. 	2 "Clean" balls will be used per match. When a ball goes out of play, the coach will kick over a clean ball. The used ball will be retrieved, sanitised with wipes and put with the clean balls again.
Risk of Contact between staff and young people when treating injuries	1. Participants 2. Coaches	Medium	<ol style="list-style-type: none"> 1. Each coach will be provided with a reusable mask and single use gloves. 2. All players should move away from the injured player to allow treatment. 3. Emergency services to be called immediately if the injury is of a serious nature. 4. If the injury is not serious, but the player cannot continue in the session then the emergency contact will be called to collect. The player will be moved to a recovery area by the first aid officer/coach. 	Welfare officer, coaching team & Head Coach to monitor sessions and adjust practices accordingly to continually ensure safe operation on the sessions

Hazard	Who could be harmed?	Severity	Controls	Additional comments
Cross contamination through violence: Spectators	Members of the public	High	<p>In the event of a violent outbreak between adults spectating, the police shall be called immediately and the the game will cancelled.</p> <p>All players, officials, club members will be moved away from the area to safe location as guided by the COVID Officer, and remain 2 metres apart, in groups not exceeding 6.</p> <p>When it is safe to do so, the COVID officer will instruct the match participants to leave the facility.</p>	An incident report shall be created by the club welfare officer to be retained by the club and shared with the league and CFA.
Cross contamination through violence: On Pitch	<p>Players</p> <p>Coaches</p>	High	<p>In the event of an on-pitch fight, the club will act under the instruction of the referee.</p> <p>All players to sanitise whilst the sanction is being dealt with.</p>	<p>Although on pitch violence in female football is rare, the risk of contamination is high.</p> <p>An incident report shall be created by the club welfare officer to be retained by the club and refer to player sanction as instructed by the referee.</p>
